

Microcredentials (Rokwire Community):

<https://badgelist.com/Rokwire-Community/Introduction-to-Community>

Here is a technical paper on why and how Microcredentials (Digital Badges) are important for open-source communities and digital learning more generally. You do not have to read the entire paper -- this is for your reference:

<https://files.eric.ed.gov/fulltext/EJ1240709.pdf>

## January – 2020 Getting Started with Open Badges and Open Microcredentials - ERIC

International Review of Research in Open and Distributed Learning Volume 21, Number 1.  
January – 2020 Getting Started with Open Badges and Open Microcredentials Kyle Clements<sup>1</sup>,  
Richard E. West<sup>2</sup>, and Enoch Hunsaker<sup>3</sup> <sup>1</sup>Western Governors University, <sup>2,3</sup>Brigham Young University. Abstract This article is intended as a practical resource to help interested organizations design and implement an

This includes information on Codes of Conduct, which I mentioned briefly today:

<https://mozilla.github.io/open-leadership-training-series/articles/building-communities-of-contributors/write-a-code-of-conduct/>

## Open Leadership Training Series : Write or Choose a Code of Conduct - GitHub Pages

Introducing Codes of Conduct; Assignment: Write your Code of Conduct Introducing Codes of Conduct. To lead an open project effectively, you'll need to think both about the individuals on your project and how they can join and grow with the project (as we did in the previous sections) but also about the community that your crew of contributors create together.

Next week, we will be getting into Github. Here is a glossary of terms for Github -- please review before our meeting next time:

<https://docs.github.com/en/get-started/quickstart/github-glossary>

### GitHub glossary - GitHub Docs

**GitHub** clone. A clone is a copy of a repository that lives on your computer instead of on a website's server somewhere, or the act of making that copy.
